REMARKS			25X1	

25X1

The following is a list of shipments loaded at 53 railroad stations in the Dresden Regional Railroad District in October 1952:

1. Total Shipments:

From	Number of Cars	Load. The figure in brackets indicates the number of cars with a given load.
Annaberg	5	briquettes
Aue	1	military goods
	25	1 train with undetermined load 1
Auerbach	4	underwear
Baruth	2	potatoes
Beiern-Langenluba	2	"
Barthelsdorf	2	paper
Bischofswerda	7	motor vehicles
Breitenbrunn	15	1 train with undetermined load 1
Burgstall	31	military goods
Chemnitz	133	4 trains with undetermined load (65), 1 train with soldiers (10), ration supplies (40) and other military goods
Cossebaude	35	concrete slabs
Coswig	1	motorsaw

25X1 Comment. These trains are not believed to have been supply shipments.

25X1 Comment. The trains referred to in Comment 1 deducted, the supply traffic comes up to 1,066 carloads in October and, thus, is considerably below the rate of supply traffic during the previous months. The reasons may be an incomplete coverage of railroad stations, a decrease by about 200 carloads in the supply centers of Chemnitz, Dresden, Meissen, Riesa and Roederau, and a considerable reduction of coal shipments for the occupation forces.

25X1 Comment. Presumably, additional shipments of units of the 6th Gds AAA Div (US).

SECRET

25X1

SECRET

25X1

- 10 -

- 25X1 Comment. It is believed that the 10 cars carried soldiers to be demobilized to the U.S.S.R. via Weimar. In the fall of 1952, Weimar was the processing point for discharges and recruits of the Eighth Gds Army. As, except for the engineer depot, no other unit of the army is known to be stationed in Chemnitz, the number of 10 cars carrying about 250 men appears too high.
- 25X1 Comment. The concrete slabs were presumably bound for the construction of splinter-proof boxes at the Grossenhain and Altenburg airfields. Comment. a total of 350,000 of these concrete slabs were ordered from various concrete plants in East Germany by the Soviet Air Force.
- 25X1 Comment. These shipments were probably destined for units of the Soviet Air Force, as airfields or other air force installations are located at all towns mentioned.
- 25X1 Comment. These four troop trains carried the 220th Hv Tank SP Regt from Glauchau to the fall maneuvers of the Eighth Gds Army to the Dessau area.
- 25X1 Comment. This shipment indicates an affiliation between Goerlitz and Cottbus. According to other information, a small unit of the 9th Mecz Div employed as bridge guard may be permanently carried in Goerlitz.
- 25X1 Comment. Shipments to the U.S.S.R. of discharges of the First Gds Mecz Army.
- 25X1 Comment. Some of the trains, especially those dispatched from Oschatz on 9 October, are believed to have carried troop units. Probably, elements of the 8th Gds Mecz Div from the posts of Borna, Leisnig and Leipzig-Heiterblick participated in large-scale field exercises in the Zeithain-Koenigsbrueck area and returned to their posts on 8 October.
- 25X1 Comment. This train probably carried elements of the 39th Gds Mecz Rifle Div from Flauen to the fall maneuvers of the Eighth Gds Army to the area on either side of Dessau.
- 25X1 Comment. Comment. an unidentified unit of the air force.
- 25X1 Comment. unidentified signal battalion of the 9th Tank Div in Riesa until 6 October 1952. The train Comment. possibly carried elements of the division headquarters and signal battalion which witnessed the fall maneuvers of the Eighth Gds Army in the area on either side of Dessau.
- 25X1 Comment. The Frauenhain railroad station is located along the Grossenhain-Elsterwerda line. It is possible that Comment. carried a small unit of the 9th Tank Div to field exercises in the Zeithain-Koenigsbrueck-area from 6 to 8 October.
